

## DSP Falcon Series Fifth Wheel Hitches

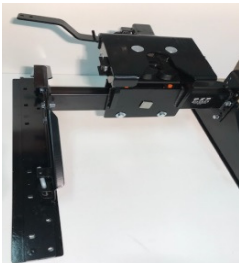

Part #  
 71401

- heavy duty construction for light duty commercial, farming & frequent towing usage
- 360degree surround grip with 1" thick jaws for more surface area on the king pin reducing wear and tear and a smoother ride experience with less vertical motion
- replaceable jaws to reduce the need to buy completely new hitches in heavy usage applications/commercial usage
- lock-out pin to ensure jaws are engaged for towing
- optional mountings for DSP hitches and other major brand on crossbed application
- made in Canada since 2007
